July 20, 2026

The Board of Directors at the last meeting decided to have the street tree branches trimmed and raised some 20 feet to help prevent hitting vehicles and trucks coming into the village.

All the medians' trees have been pruned and raised, and this will complete the tree maintenance needed to enhance the appearance of the street view.

If you wish to not have your trees trimmed, please let us know and this will not be done to those on your property.

The Board of Directors thanks you for your participation in this project.

Please reply to

Ethel@KingwoodAssociationManagement.com if you wish to **not** have your trees trimmed within the next couple of days
